Japanese Silver Vase with Birds and Waterside Landscape

A beautifully proportioned Japanese silver vase of generous rounded form, finely decorated with birds among reeds and rocky outcroppings, flowing water, and stylized waves. The delicate engraving contrasts beautifully with the smooth, polished silver surface, while the broad, gently flared rim complements the vase's elegant silhouette. The underside bears a rectangular maker's mark. Accompanied by its original fitted wooden storage box, inscribed to identify the vase as silver.

PRICE

$8,500
